| RUC3215 | G1-1/4"  | 1/2"     | 33      | 160     | 70      | 195     | 220   | 58  | 20                   |
| RUC4020 | G1-1/2"  | 3/4"     | 33      | 160     | 70      | 195     | 220   | 58  | 30                   |

**SALIENT FEATURES:**

- “SFI” Brand rotary unions are designed to perform under severe working condition.
- The rugged design ensure high level of performance and longer life.
- The inner rotary shaft is supported on ball bearings ensuring longer life.
- The three piece design ensure easy maintenance.
- The input connection ports can be aligned at different angles if required giving additional leverage during assembly.

**Our Other Products:**

**Worm Gear Screw Jacks**

**Hydraulic Cylinders**

**Hydraulic Power Packs**

**Note:** Due to ongoing development specifications are subject to revision without any notice.
