

6)Product Group: In line Duct Fan/ Air Fan :

Product:

1.In line Duct Fan/

2.Air Fan

In line Duct Fan

Key Features :

- Suitable for application in Industrial exhaust & ventilation
- Motor & impeller assembly are suitable for operation in any angle.
- Backward curved impeller with external rotor motor.
- Dynamically balanced rotor & impeller
- Life long lubricating ball bearing
- Class F Insulation motor.
- Thermal overload motor protection
- Motor with variable speed controller on request
- Junction box provided with fan for flexibility

Application :

- Spot Ventilation
- Booster Fan
- Smoking Area Exhaust
- Room/Restaurent/Bar/Kitchen/Bathroom Exhaust & ventilation
- Air Transfer
- Welding Fume Removing
- Dust Booster
- Hot Air Exhaust
- General Ventilation & exhaust
