The ATA Carnet is a simple customs document which is readily made out by the holder and checked by the customs.

For business people the ATA Carnet provides a simple and speedy way to travel abroad with business materials. It saves both time and money and this is a very important factor in international competition.

Trade circles, guaranteeing associations and customs administrations all acknowledge the excellent operation of the ATA Carnet System.

For the customs, the use of the ATA Carnet entails less administrative work and increased customs safety since the payment of import duties and taxes is guaranteed by the guaranteeing association affiliated to the WCF/ATA guarantee chain in the territory of the temporary admission.

The guarantee is automatic and the customs need not check its validity for each Carnet. In addition, the system does not affect the revenue of the nation since the goods covered by the ATA Carnets are intended for re-exportation and not at all for sale in the country of temporary admission. The system is "self-policing" in that should the Carnet holder fail to re-export the goods within the period of validity of the Carnet, duties become payable.
