Free zoom,USB
flash print,
120ppm

Specification	BPS-150
Operation mode	Thermal master making, memory print
Scan mode	B4 scan,B4 print
Original type	Document feed
Image processing mode	Sheet, Two in one
Original size(min/max)	Text/Text&picture/Picture/Newspaper/Pencil
Printing area(max)	Min: 90*140mm Max: 297*420mm
Paper size(min/max)	252*355mm
Master making speed	Min: 90*140mm Max: 297*420mm
Resolution	19s (A4 vertical)
Print reproduction Ratio	300*400dpi
Paper weight(min/max)	Reductions:71%,81%,87%,94%; Enlargements:100%,115%,122%,141%; Free zoom:50~200%(1% increment)
Paper feeding capacity	40~200g/m²
Paper receiving capacity	950 sheets(60g/m²)
Print speed	1200 sheets(60g/m²)
Image positioning	Five Steps Variable (55/70/85/105/120 ppm)
Scan density	Horizontal: ± 10mm,Vertical ± 10mm
Master making density	5 variable (lighter, light, middle, dark, darker)
Master eject capacity	5 variable (lighter, light, middle, dark, darker)
Ink supply	20 sheets
Stencil supply	Automatically , 600ml/bottle
Power source	Automatically , 90m/roll
Rated input power	220V,50/60Hz
Paper feeding system	120W
Features	Double roller feeder
Optional function	PC-connected printing, Ink-saving mode, Pencil mode, Newspaper mode.
Optional parts	Programmed Printing Confidentiality mode, Code mode, Consumable used-out reminder, Energy-saving function.
	U-disk master making, Automatic power off
	Color drum, Sorter , Bottom stand

Notice

We keeps continuous improvement on product performance and reserves the right to amend the specifications and appearance without prior notice.

Marketed By

Tips: -It may break down the machine if using the fake or low-quality consumable but manufacturer is not responsible to supply after-sale service.Please use factory's original supplies.
-Please operating under the guidance of user manual.

感动不断的舒心服务

BPS-150 are the best combinations for multi-function, high-efficiency, and fashion design.

Big LCD display, easy to operate. B4 original scan, A3 document feed, B4 paper print. It is easy to satisfy various printing requirements and realize the best performance on pc-connected printing and topping printing.

Master eject capacity is easy for 20 sheets.

Innovative design of paper feeding by double rollers which is much more stable. Simultaneously feed paper to guarantee one page input only once.

With 120PPM fast printing speed, BPS-150 realize easy processing even for high-volume printing work. In addition, with multi-shift adjustment switches, BPS-150 adapt to different thickness of paper feeding.

Normally 1000 sheets paper-receiving capacity, even can reach 1200 (60g/m²) sheets. Paper feeding tray can heap 950 sheets (60g/m²) at once during high-speed printing.

Precise paper feeding pressure adjustment realizes excellent printing of various paper types, from 40g-200g/m². Three shifts pressure adjustment from thin paper to thick paper enhances reliability.

PC-connected printing with high-quality output

BPS-150 are self-equipped with USB port. They are a standard printer, simplifying complex office tasks by high speed PC printing so that output high quality image with less time, even for micro picture and text.

Traditionally 4 steps process by operator for long time

Newly operation by 2 steps process, connecting PC by remote control.

Technical innovation, achieve better image quality

• Super low cost

BPS-150 are cost-effective. They are more aggressive in features and low-cost. The more you print, the lower cost you bear for consumable master and ink.

• Environment friendly

Energy-saving and auto shut-off (optional). With this two functions, operator can easily handle between them to save energy. Machine will power off by auto shut-off when machine stands by for a certain time to avoid wasting power.

• Color printing

They can realize color printings by changing color drum, emphasising on the special files and bringing a lot of benefit to save cost of color printing by 50% vs other supplier as well.

• Auto printing density adjustment

They are so humanized that they adjust the printing density automatically, controlled by PCB process, to keep stable output not affected by environment or print speed.

Humanized design, easy to control

• Enlargement/ Reduction functions

Reduction ratio by 71%, 81%, 87%, 94%, enlargement ratio by 100%, 115%, 122%, 141%. In addition, They realize the free zoom by 50~200%, to satisfy more flexible adjustment between the original and output printing.

• Fine resolution

300*400dpi makes the printing more visual and sharp.

• Wide paper range

The high capacity of paper tray and wide range of paper weight among 40-200g/m² meet all kinds of requirements for education system.

• Auto shade elimination

BPS-150 eliminate the shade automatically during printing to keep the paper clear and clean.

• Two in one function

This function easily and efficiently makes two originals to be printed in one page.

• Superior drying device

Quick dry to avoid back-penetration. The paper keeps clean to be available for double-side printing.
