BPS-650 Specification BPS-750 Scanner mobile scanning, thermal master making, memory print, A3 scan, A3 print Operation mode Original type Sheet, Book/Magazine(≤10kg), Two in one Text/Text&picture/Picture&Text/Picture/Newspaper/Screen/Pencil Image processing mode Original size(max) Max: 310*432mm Printing area(max) 291*414mm Min: 90mmx140mm Max: 310*420mm Paper size(min/max) Master making speed 19s (A4 vertical) Resolution 600*600dni Reductions:71%.81%.87%.94%. 100%. 115%. 122%. 141%: Free zoom:50~200%(1% increment) Print reproduction Ratio Paper weight(min/max) 40~128g / m² 1000sheets(70g / m²) Paper feeding capacity Paper receiving capacity 1500 sheets(70a / m²) Five Steps Variable (55/70/85/105/130 ppm) Print speed Image positioning Horizontal: ± 10mm. Vertical ± 10mm Scan density 5 variable (lighter, light, middle, dark, darker) Master making density 5 variable (lighter, light, middle, dark, darker) Master eject capacity 50 sheets Automatically, 600ml/bottle Ink supply Stencil supply Automatically, 90m/roll 220V,50 / 60HZ Power source Rated input power 120W Paper feeding system Double roller feeder Features PC-connected printing, Network printing, Ink-saving mode, Pencil mode, Newspaper mode, Screen mode, Book shadow erasure, Programmed Printing, Confidentiality mode, Code mode, Consumable used-out reminder, Automatic original type recognition, Energy-saving function, Shade density adjustment, Scanning length adjustment Master Length adjustment, Automatic turn off, U-disk master making, Automatic printing pressure adjustment.

Optional parts Notice

We keeps continuous improvement on product performance and reserves the right to amend the specifications and appearance without prior notice.

Tips: -It may break down the machine if using the fake or low-quality consumable but manufacturer is not responsible to supply after-sale service. Please use factory's original supplies.

-Please operating under the guidance of user manual.

Color drum, Sorter, Bottom Stand

Marketed Bv

Blue Digital Duplicator

BLUE **BPS-650 BPS-750**

Easy operation, high quality.

Create

High productivity, variable speed output

Blue duplicator connects computer directly, realizing master making and printing at one time. It saves printing time and improves working efficiency & printing quality,

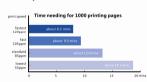

Leading paper feeding platform: double roller makes paper feeding more stable, ensuring single page input one time.

Large capacity and high efficiency paper feeding enhance the working efficiency, with paper receiving capacity 1500 sheets(70g/m²) & paper feeding capacity 1000 sheets(70g/m²), saving time for paper feeding during printing.

High productivity 130 ppm.: BPS-650/750 printing speed is up to 130ppm. It can meet large printing volume needs. Moreover, it can print papers in different thickness with multi-adjustment.

Print/Scan resolution 600x600dpi*: High precise resolution can avoid vague line and image

*BPS750

High sharpness:

Automatic original type recognition, shade density adjustment, realizes stable printing quality as expected. The printing quality rivals as offset printer, showing micro text &

5 variable (lighter, light, middle, dark, darker)

Environment friendly

Energy-saving and auto shut-off. With this two functions, operator can easily handle between them to save energy. Machine will power off by auto shut-off function after certain time to avoid power waste.

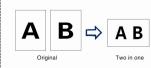

•Two in one function

This function easily and efficiently makes two originals to be printed in one page.

BPS-650/750 eliminate the shade automatically during printing to keep the paper clear and clean.

Auto shade elimination

Origina

no auto shade elimination

Office

Color printing

They can realize color printings by changing color drum, emphasizing on the special files and bringing a lot of benefit to save cost of color printing by 50% vs other supplier as well.

Auto printing density adjust-

They are so humanized that they will adjust the printing density automatically. controlled by PCB process, to keep stable output not affected by environment or print speed

Stable and Durablel

Simple operation

Error like paper jam etc. is easily found and understood through the control panel and solved by the new user.

•Obvious operation control panel

The control panel is made up of LCD touch display on the left and easy-operated keys on the right, both are convenient for operation

strengthen the working efficiency.

Upgraded management

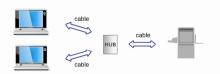

Confidentiality mode, Consumable

used-out reminder. The original scanning

adjustment, Stencil length adjustment, Auto shut off, U-disk master making

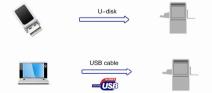

Network connection

The new software system provides network configuration such like IP address, etc. It avoids awkward situation that one duplicator can only connect one computer with USB but realize that one duplicator can connect multi computers in LAN. It makes your work more efficient.

U-disk master making

Connect U disk to duplicator's USB interface, then you can print original type from U disk easily.

Stable and Durable

Online support

Online support to provide professional and good service to clients.

Parts guarantee

We have sufficient parts stock to offer convenient parts exchange service and logistics delivery service.
