STAR5000 Fetal Monitor

Simple
operation mode

Superior
products performance

Excellent
system function

Powerful storage
and replaying system

Alarm system

Networking system

External printer

Features

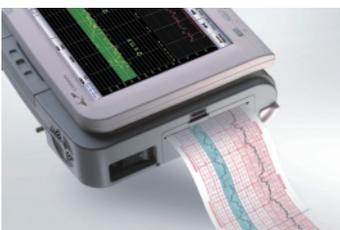

- **Simple operation mode**
Simple mode design, 12.1" color TFT touch screen, easy for observation
- **Superior products performance**
Advanced ARM system, convenient for maintenance and upgrade
- **Excellent system function**
Adjustment of FHR, TOCO waveform, parameter color, FM measurement auto/manual, automatic fetal status scoring system, more clinical information for better decision
- **Powerful storage and replaying system**
120 hours all-parameter displaying, 1 hour voice storage
- **Alarm system**
Intelligent 3-level audio/visual alarm, more accurate analysis
- **Networking system**
USB socket for software upgrade, ethernet socket supporting wire/wireless central monitoring for maximum 128 units
- **External printer**
Internal & external printer are available, improving quality & reducing cost

Standard

FHR / TOCO / FM / Inside Battery / 112mm thermal printer

Optional

External Printer / Twins / Waterproof sensor

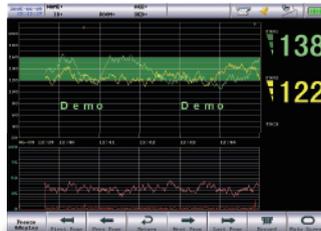

● 112mm wide thermal printer, paper rolls, Z-fold paper are available

● Hidden handhold, convenient to carry

● 12.1 inch LCD touch screen, convenient and efficient

● External printer is available

● Portable wallmount solution

● 12- crystal pulse wave sensor, for capturing more accurate FHR signal

● Main menu interface

● Patient information input and scoring interface

STAR5000D Fetal Monitor

- 6.5' color TFT touch screen, convenient for observation & movement.
- 152mm wide-line printer, excellent printing view.
- Automatic detection transducers, easy and flexible connection.
- 12 crystal wide pulse wave waterproof transducer, suitable for water birth.
- Advanced patient files management system, support handwriting input.
- Tempom timing monitoring function, avoid over time monitoring.
- Intelligent alarm management, automatic-identification of alarm level, self-adjust proper alarm time to reduce false alarms.

STAR5000E Fetal Monitor

- 5.7" folding-up LCD screen, easy for observation.
- 112mm printer, easy for paper replacement and observation.
- Tempom timing monitoring function, avoid overtime monitoring.
- Manual/automatic FM counting, automatic fetal status scoring system.
- Advanced patient files management system, support handwriting input.
