## Diesel Drive Auto Prime Contractor Pump

The Contractors pump range has been designed to provide greater cost efficient fluid handling solutions for all users.

The range offers efficiency levels of 83% which translate into benefits for the end user and the environment.

Contractors pumps are a fully automatic priming pump and can run dry for extended periods due to the oil bath

mechanical seal assembly which allows priming with long suction hoses and suction lifts of up to 9 metres (28 feet). As fluid levels fluctuate, the pump will "snore" until the liquid is available for the pump to fully reprime itself automatically.

Built with the highest quality materials , 316 SS Impeller and wear plates as standard.
