

## **TWO COMPONENT WATER PROOFING**

### **Description**

Home Pride Two Component Water Proofing is a high performance acrylic polymer modified cementitious membrane coating for under tile waterproofing. It helps safeguard against water penetration as it provides high resistance against long term weathering and is high performer in every climatic condition.

### **Features and Benefits**

- It protects gypsum, cementitious boards and concrete against water penetration.
- Its elastomeric quality makes it flexible enough to fill up hairline cracks.
- It is economical, non-toxic, durable .
- It can easily be applied both internally as well as externally

### **Area of Application**

Designed for internal floor application

### **SUITABLE SURFACE**

Gypsum , cementitious boards, glazed surface, cast concrete, plaster board, moisture resistant grade plaster board.

### **Mixing**

Add Water Proofing Component A and B in 1:1 ratio using slow speed drill fitted with suitable paddle. After mixing leave mixture for 5 minutes before it to mature. Then remix it to restore the consistency.

### **APPLICATION**

It can applied on fiber cement board, glazed surface, cast concrete, plaster board, moisture resistant grade plaster board . For best results apply it after priming the surface and allow Two Component Water Proofing for 3 days before tiling the surface.

### **DIRECTION OF USE**

Saturate and clean the surface thoroughly to remove dust and other particles. Brush the mixture firmly on the surface carefully so that the layer of the material is not too thin on the surface.

### **Shelf Life & Storage**

6 months, store in dry & cool place

### **Coverage**

Approximately 2kg/sqm for 2 coats, coverage may vary depending on surface conditions .

### **Technical Information**

Properties	Result
Pot Life	½ Hour
Application Temp.	20 <sup>0</sup> - 35 <sup>0</sup>
Mixing Ratio	1 part powder : 1 part liquid
Recoatable	Yes

### **Packing**

A component-20kg, B component-20ltr.

### **Colour**

Light Grey

### **CERTIFICATION**

## **TWO COMPONENT WATER PROOFING**

ISI TYPE I
