

Model Number : MK-W200

Description:

The Weather Center gives you all the weather data you'll need—from your own back yard! Equipped with a touch-panel interface for quick and convenient information access, the WMR200 captures over 10 weather measurements, from up to 300 feet away. You'll see the precise Atomic time, current indoor and outdoor temperature and humidity, wind speed and direction, wind chill, dew point, heat index, barometric pressure and rainfall data.

For additional weather monitoring, the unit can support up to ten remote sensors, including a UV monitor (optional). The onboard memory and free PC software with multi-language capability make this the only Weather Center you'll ever need.

Note: To be in line with our philosophy of providing quality products and supporting services, please [click here](#) to access a dedicated website containing supporting documents for this product.

Features:

- Displays current moon phase
- Displays Weather Forecast icons—Sunny, Partly Cloudy, Cloudy, Rainy or Snow
- Indoor and outdoor (up to 10 wireless sensors) temperature and humidity measurements
- Measures temperature, humidity, wind chill, wind speed, wind direction, UV index (optional), barometric pressure and rainfall
- Displays dew point, wind chill and heat index readings
- Weather alert alarms for temperature, heat index, humidity, dew point, gust wind and rainfall rate
- Automatically sets itself to the U.S. Atomic Clock
- Includes 5-language software—English, Dutch, Italy, Spanish and French to store and view weather data on your PC via USB download
- On-board Data Logger Function stores data with a time stamp
- Long range transmission of 300 feet (100 meters) at 433MHz between the main unit and remote sensors
- Main console features touch-screen controls and EL backlight
- Installation kit allows for multiple mounting options (includes 6 foot mounting pole)
- Low battery indicator icons for both main units and wireless sensors
- Operating temperature range: -22°C to +70°C (-8°F to 158°F)
- Includes 6V DC AC adapter for main unit and batteries for wireless sensors
- Includes 6 foot usb cable

SPECIFICATIONS :

Weather Forecast Icons	Yes
Moon phase	Yes
Indoor/Outdoor Temp/Humidity Measurements	Indoor and Outdoor
Measures temperature	Yes
Measures humidity	Yes
Measures wind chill	Yes
Measures wind speed	Yes
Measures wind direction	Yes
Measures UV index	Yes
Measures barometric pressure	Yes
Measures Rainfall	Yes
Weather Alert Alarms	alarms for temperature, heat index, humidity, dew point, gust wind and rainfall rate
Atomic (World Clock)	Yes
Multilingual	Includes 5-language softwareXEnglish, Dutch, Italy, Spanish and French to store and view weather data on your PC
USB Download	Yes
Data Logger	On-board Data Logger Function stores data with a time stamp
Transmission Distance	up to 300 feet away
Menu Interface	touch-screen controls
Backlight	Yes
Low Battery Indicator	Yes
Mounting Options	multiple mounting options (includes 6 foot mounting pole)
Operating Temperature Range	Range: -8 degrees F to 158 degrees F
AC Adapter (Y/N)	Yes
Features	Displays dew point, wind chill and heat index readings
Software Included	includes software to store and view weather data on your PC
Dimensions	12" x 27.5" x 5.25"
