Detoxy Spray for Daily Nutrition:

These ingredients enriches our body with required daily nutrition and helps to revive and regenerate our good cells, gives energy to our cells due to which our body starts functioning properly removing all the disorders and soothe the pain.

For Skin Problems

All these ingredients are nature's most powerful skin healers and rejuvenators, beneficial in treating soft tissue problems and healing the skin. Due to its natural antiseptic and antimicrobial properties helps to protect skin from infection. It promotes faster healing of cuts, scratches, household burns and wounds. Recent research demonstrates that these also have anti-inflammatory action, acting as a modulator of inflammatory cytokines in the human body.

These ingredients are known to be beneficial in troublesome skin conditions of all sorts including cuts, household burns, scrapes, scratches, wounds, acne, boils, allergies, bug bites, sunburn, psoriasis, eczema, dandruff, acne outbreaks and more.

How to use:

For skin allergies & skin problems like rashes, wounds, boils, bruises, acne, sun burn, psoriasis, eczema, Detoxy Spray can be sprayed on the wet cotton ball (2-3 sprays) and further can be applied over the skin or the affected part. Avoid direct contact with eyes.

For dandruff, 2-3 sprays can be added in hair shampoo and then applied on hair

It can also be taken internally to regenerate cells lost to normal aging process and reveal younger, brighter looking skin. Make 3 sprays onto each glass of drinking water and can be consumed thrice a day morning, noon and evening, preferably one hour after the meal.

For Glowing Skin

These wonderful ingredients deliver essential nutrition to deeper levels of the skin and improve the elasticity and complexion, making skin feel softer, smoother and more radiant. The antioxidant effects of these removes toxic chemicals from skin and helps to revitalize skin cells. It also contains anti-aging agents and can protect skin from future signs of aging.

How to use:

For lifeless and dull skin, Detoxy Spray can be sprayed on the wet cotton ball (2 sprays) and further can be applied over the skin, twice a week. Avoid direct contact with eyes.

For dark spots 2 sprays can be mixed with organic face pack.

For dark circles, apply 2 sprays on a wet cotton ball and cotton can be placed under eyes for 4-5 minutes

For better results you can take it orally also. You can make 3 sprays in each glass of drinking water which can be consumed thrice a day i.e. morning, noon and evening, preferably one hour after the meal.

For Joint Health

Its active ingredients help increase blood circulation, increase bone density with providing relief from joint pains, muscle aches, swelling in joints and other body pains.

How to use:

For pain in joints, ankles, shoulders, back, neck, cervical etc, make 2 -3 sprays on the affected part of body and massage gently.

For better results you can take it orally also. Also you can make 3 sprays in each glass of drinking water which can be consumed thrice a day i.e. morning, noon and evening, preferably one hour after the meal.

Makes Food Organic and Safe for Consumption

Detoxy Spray is enriched with wonderful ingredients which can help remove toxic chemicals and residues from the surface for fruits, vegetables and other food items. Moreover it also helps to remove infection causing germs, bacteria and fungi.

How to use:

Washing with water alone is not sufficient to remove toxic chemicals and pesticide residues from surface of fruits and vegetables. First wash them with water and then make 2 sprays of Detoxy Spray.

At the time of making rice or pulses, first wash with water, make 2 sprays in one bowl of rice or pulses and then cook.

Make 2 sprays of Detoxy Spray in a bowl of yoghurt, it helps prevent the over maturation of the yogurt, growth of contaminants and microbes and keeps curd fresh.

To keep milk fresh for longer period of time add 2 sprays in one litre

While kneading flour of wheat, maize or other grains, 2 sprays can be added to remove the effect of hazardous chemical residues.

For Oral Health

All these ingredients have powerful antimicrobial properties that does not allow harmful microorganisms to adhere to your teeth (reduce plaque), beneficial for overall oral health.

How to use:

Make 3 sprays onto glass of drinking water and you can gargle with this water after meal so that it can work as mouth freshener and will also control the bad odour in mouth.

Moreover, in case of dental pain, it can be directly sprayed on the teeth (2 Sprays).

For mouth sores and boils, make 2 sprays on wet cotton and apply on affected area.

For Hand Sanitation

All these ingredients have powerful anti-microbial properties and can help to protect from infection causing organisms. Moreover also helps to destroy toxins, chemicals and dirt from the skin, thus can be used as effective sanitizer.

How to use:

Apply 1-2 sprays to the palm of one hand and rub your hands gently.

For Kitchen Use

Detoxy Spray is a very beneficial product for kitchen.

How to use:

For Household burns - It contains powerful antimicrobial and skin healing agents. Detoxy Spray can be sprayed on the wet cotton ball and further can be applied over the skin or the affected part. It helps the household burn to heal quickly, reduces scarring, and prevents infection. Avoid direct contact with eyes.

For Kitchen Cutting Boards and Utensils - Even after wash, kitchen cutting boards and utensils contains plenty of microbes. So, after wash spray with Detoxy Spray, and allow to air dry. Increase the antimicrobial qualities of your liquid dish soap by adding two spray in the liquid dish wash before use.

Use Detoxy Spray to remove contaminants from fruits and vegetables, Firstly wash them with water and then make 2 sprays on their surface

At the time of making rice or pulses, first wash with water, make 2 sprays in one bowl of rice or pulses and then cook.

Make 2 sprays of Detoxy Spray in a bowl of yoghurt, it helps prevent the over maturation of the yogurt, growth of contaminants and microbes and keeps curd fresh.

To keep milk fresh for longer period of time add 2 sprays in one litre

While kneading flour of wheat, maize or other grains, 2 sprays can be added to remove the effect of hazardous chemical residues.

Keep your refrigerator free of mold, bacteria and fungus by spraying Detoxy Spray onto the shelves and into the food storage bins.

Spray your kitchen sponges, dish rags and drying towels after each use to help keep bacterial counts down and to help prevent the spread of bacteria throughout your kitchen.

Detoxy Spray is a wonderful product for overall health and wellbeing
