AUTISM and EPILEPSY CARE

NON-INVASIVE DIAGNOSIS AND TREATMENT FOR AUTISM and EPILEPSY

Epilepsy is a brain disorder marked by recurring seizures, or convulsions. The autism-epilepsy overlap appears to be most common among people who also have intellectual disability.

Studies suggest that 15 to 30 percent of individuals with autism also have epilepsy. And about 5 percent of those who develop epilepsy in early childhood also develop autism.

Experts propose that some of the developmental brain changes associated with autism also contribute to seizures. These differences in brain development appear to cause changes in the activity of brain nerve cells, or neurons. Neurons process and transmit information and send signals to the rest of the body. Certain disturbances in their activity can cause seizures. Experts propose that some of the brain abnormalities associated with autism may also contribute to seizures.

Recognizing epilepsy in someone with autism - Seizures can begin at any age, though research has identified two peaks in onset among children with autism-in the preschool years and again in adolescence.

Characteristic symptoms include:

- Unexplained staring spells
- Stiffening of muscles
- Involuntary jerking of limbs

Other less-specific symptoms can include:

- Sleepiness or sleep disturbances
- Marked and unexplained irritability or aggressiveness
- Regression in normal development

Also called autism spectrum disorder. A serious developmental disorder that impairs the ability to communicate and interact. Autism spectrum disorder impacts the nervous system and affects the overall cognitive, emotional, social and physical health of the affected individual.

The range and severity of symptoms can vary widely. Common symptoms include difficulty with communication, difficulty with social interactions, obsessive interests and repetitive behaviors.

Diagnosing and treating epilepsy is critically important. Research shows that individuals with autism and untreated epilepsy are at greater risk for overall poor health, and in extreme circumstances, premature death. Compared to those without seizures, children with ASD and seizures are also more likely to have sleep difficulties and behavior problems.

We very well know, at initial stages there are no symptoms. It can be diagnosed only when revealed on the physical. But by then it is too late. Autism cases can be detected as early as 2 to 3 year of age. We advise immediate early attention to stop any further damage.

WHAT WE DO & WHAT WE DO NOT DO:

1. WE DO NOT DIAGNOSE:

We assess, measure, determine or evaluate a condition.

2. WE DO NOT PRESCRIBE:

We recommend, suggest, advice or offer options to alleviate the condition.

3. WE DO NOT TREAT:

We work with, release, normalize, relieve, balance or remedy a condition.

4. WE DO NOT CURE:

We alleviate, balance, improve, correct or normalize a condition.

5. WE DO NOT Use the word "DISEASE":

We use condition, problem or imbalance.

6. WE DO NOT MAKE CLAIMS OR PROMISES:

We explain that health is an individual matter with many approaches to healing and no guarantees. It is our job to educate our clients so that they are more in control of their own health.

•

Our work involves to DE-STRESS all concerned areas, causing an imbalance, leading to Diseases / Disorders. We work to MANAGE STRESS, to help the system function normally. Our work pattern is to DETOXIFY the system. Support it with ESSENTIAL SUPPLEMENTS & FREQUENCY ENERGIES. And finally, provide CORRECTIVE FREQUENCIES, to restore balance in the system. We strongly believe in "BODY HEALS ITSELF".

We very well know, at initial stages there are no symptoms. It can be diagnosed only when revealed on the physical. But by then it is too late.

Normally we wait for the damage to get concrete, experience the discomfort and pain, before we address it. In modern science, help is rendered only when the problem is diagnosed. Diagnosis is possible only after signs of physical damage. By this time the damage is already done and reversal is not possible. With the help of allopathy, we only reduce the impact, or work on reducing the pains and discomfort, but never rectify the situation. There is no work done to reverse the damage or to correct the situation and causes, for it not to repeat again. Whereas in BIOFEEDBACK, we are in a position to assess the situation and correct it, much before the damage starts. As the Diagnosis and Therapy involves work on the cellular level, and corrections on GENETIC & AUTO IMMUNE system, we are in a position to identify the oncoming disease / disorder and offer remedy for the same.

We, at MEHAK WELLNESS CENTRE, under the expertise of DR RAJEEV PRAKASH MEHRA, a GOLD MEDALIST & REIKI GRAND MASTER offer NON-INVASIVE Diagnosis on State of the Art, latest 21st Century technology to verify the onset or presence of AUTISM and EPILEPSY.

We, run a test to evaluate the AUTO IMMUNE, CHROMOSOMES and GENETIC values along with a complete test to evaluate the disturbance and causes for AUTISM and EPILEPSY.

With vast experience of over 33 years, working with a wide range of Diseases and Patients, and being awarded with 80+ Certificates & Awards - DR RAJEEV PRAKASH MEHRA is confident of making a positive change in the lives of affected persons.

The test thus helps us in taking preventive measures for the disease before it could cause any permanent damage in the system, and much before it shows up on the regular physical tests.

We conduct a complete 7,000 parameter test to identify disturbances on Brain and Neuro system, causes, physical areas damaged or stressed, specific Syndromes which have been disturbed and brought about this issue of AUTISM and EPILEPSY. Along with this we work on the Auto-Immune, Chromosomes and Genetic factors to support in this work. Once the report is ready we are in a position to identify the problem with its cause and damage to other areas as well. This gives a clear indication to assess the damage done or possible damage in the near future.

Our work is NON-INVASIVE. We work with BIOFEEDBACK & RADIONICS. FREQUENCIES from different therapies are used for balancing and repairing various damages. Our work would be to work on AUTISM and EPILEPSY, and balance all parameters involved.

Being in Non-Invasive stream, we do not recommend use of any medication or support system, as this would not be a solution to eradicate your prime issue. We shall be working on the Brain and Neuro system to restrict any further damage. As far as possible we advise to avoid any invasive remedy.

Analyzing and identifying the root cause of damage, discomfort and disturbance and working to resolve the same is our prime focus. To get long term benefits, balancing on Auto-Immune system, Chromosomes, Genes and Metabolism is also carried out.

We advise to COMPLEMENT our services, with the ongoing therapies / treatment for better and faster results.

We strongly recommend DETOX procedure. This should be started immediately. COLLOIDAL SILVER WATER, ANTIOXIDANT HYDROGEN RICH WATER and use of ZAPPER. Not to forget Liquid Chlorophyll. RADIONICS and RIFE FREQUENCIES for basic corrections; start immediately on the RADIONICS maintenance kit. DIETARY SUPPLEMENTS (HemoHIM) for speedy recovery. NON-INVASIVE therapy is administered, which could take 18 to 72 sittings depending on the individual's resistance from within and the body's ability to HEAL.

AUTISM and EPILEPSY MANAGEMENT.

AUTISM and EPILEPSY SUPPORT.

AUTISM and EPILEPSY THERAPY.

- Rs.36,600/-** Diagnosis Package (Rs.27,450/- after Cash Discount)
