CONCRETE GUARD

Super Dispersal Admixture

250 kg

50 kg

Concrete Guard is a new generation superplasticizer designed to produce wide range of concrete mixes from conventional to self-consolidating concrete.

Advantages:

- ✍ Increase early and ultimate compressive strength with normal setting.
- ✍ Produces concrete with high levels of workability without segregation
- ✍ Excellent concrete durability and rheology
- ✍ Lower permeability
- ✍ Excellent handling properties
- ✍ Lowers drying shrinkage and creep
- ✍ Increased productivity
