

FRC-9

Fancy Round Chain Cutting Machine

PLC Faceting Machine (Programmable Logic Controlled)

Specification

- The machine can generate decorations on various round chains, tubes and wires in continues mode and at alternate intervals as desired.
- The machine is equipped with AC motors and AC drives to ensure life long maintenance free working.
- The spindle is coupled with variable AC drive which gives flexibility to change the speeds as per design requirements. The machine is equipped with programmable logic controller. Stored designs can be selected as desired thus giving flexibility in production and is user friendly.
- All the machine components are machined in precision CNC machine and are hardened and grounded. These components are individually inspected for accuracies. This machine is assembled in a controlled environment.

Technical Data

Dimensions	49 Inches x 35 Inches x 51 Inches (l x b x h)
Weight	550 Kgs.
Input Power	440 Voltages 2 PH
Air Supply	6 Bar or 100 psi

Note : All rights of modifications reserved.
