

Gum Labeling Machine (Semi Automatic Gum Labeling Machine)

Technical Specifications:

Model	GT-GLM-40
*Out put	5 to 40 Container / Minute.
**Container Size	◆ Ø 27 mm to Ø 150 mm ◆ Height 35mm to 270 mm (Suitable for long/short neck, e.g. brut shape bottle).
Gum	For glass bottles - gum grade must be AP350
Type of container	Glass, Plastic, Aluminum, Pet etc.
Label size	◆ Width: 25mm to 160 mm ◆ Length: 70 mm to 325 mm
Motor	0.25 HP / 3 Ph.

* Depending upon container / bottle size, label size and operator skill.

** Container must be round only.

Note: 01. In some cases 100 % labels may not be stucked on bottle circumference because of label weight and for lightweight bottles containers.

02. Corners of the label may not stick to the bottle in that case it is require to stick the corners manually.

Additional Innovations:

- ✓ Compact portable model, which can be used for regular production as well as in R & D Dept.
- ✓ Can be used in liquid, tablet etc. dept.
- ✓ Can be used in plastic, aluminum, pet containers etc.
- ✓ Change over time - 10 minutes maximum.
- ✓ Maintenance free
- ✓ Immediate pay back saving in manpower.
- ✓ Entire labeling area is covered with uniform gum application with minimum gum consumption.
- ✓ Applications: Pharmaceuticals, Chemicals, Cosmetic, Food & Beverage & many more.
