

MTS seals for ALFA LAVAL® pumps

MAK-TECH SEALS make a wide range of seal parts for Alfa Laval® equipment, please contact us with the O.E.M. details for cross-reference and identification.

MTS 17B To Suit lkr Series Agitators

MAK-TECH SEALS manufacture and stock 30mm and 35mm rubber-encased MTS 17B seals to suit Alfa Laval® LKR– series agitators.

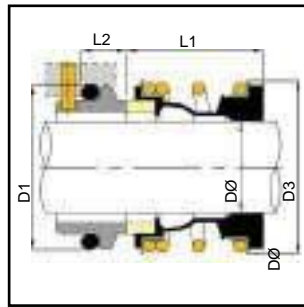

SHAFT SIZE DØ	SIZE CODE	D1	D2	D3	L1	L2
30.00	0300	50.80	45.80	53.00	26.90	11.99
35.00	0350	53.98	52.00	62.00	34.90	11.99

MTS 19C To Suit ALC Series Pumps

MAK-TECH SEALS manufacture and stock modified MTS 19 style seals to suit Alfa Laval® ALC series pumps, commonly utilised in food and dairy processes.

For ALC pumps with flush housings, please see MTS 90 on following page. MTS 19C is available from stock in all three common elastomers, as well as FDA / E.C. Regulation compliant materials.

SHAFT SIZE DØ	SIZE CODE	D1	D3	L1	L2
40.00	0400	58.00	60.00	30.00	14.00
53.00	0530	73.00	76.00	33.00	15.00

Seals to suit ALFA LAVAL® CONTHERM® scraped-surface heat exchangers

1.1/2"FLUSH SINGLE

2"NONFLUSH SINGLE

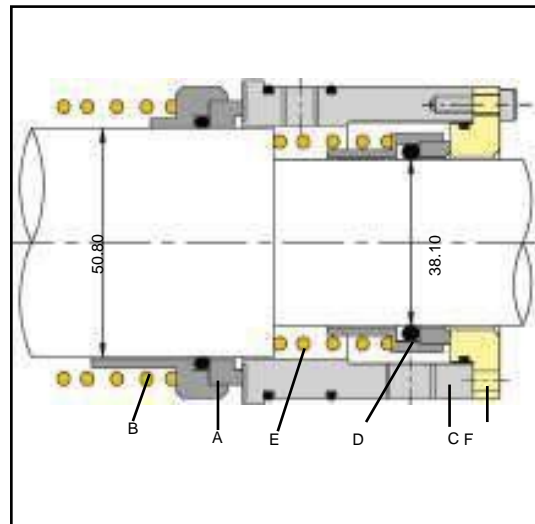

SHELLEND.TC

2"FLUSH SINGLE.180/90

All components are supplied as standard with Nitrile 'O'-Rings, if any other elastomer is required, please just advise at time of order.

A	SHELLEND.TC	2.000" Outer Shaft rotary head, with Tungsten Carbide face
A	SHELLEND.CARB	2.000" Outer Shaft rotary head, with Carbon face
B	SHELLEND.COIL	Coil to suit 2.000" Outer Shaft rotary head
C	2"FLUSH SINGLE.90	2.000" Outer Shaft flush housing, with ports at 90 Degrees, and chrome oxide face
C	2"FLUSH SINGLE.180	Same as above, but with flush ports at 180 Degrees
C	2"NONFLUSH SINGLE	2.000" Outer Shaft flush housing, with ports at 90 Degrees, with chrome oxide face.
D	1.1/2".SHELLEND	1.500" Inner Shaft rotary head, with Carbon face.
E	1.1/2".SHELLEND.COIL	Coil to suit 1.500" Inner Shaft rotary head
F	1.1/2"FLUSH SINGLE	1.500" Inner Shaft stationary, with bolt holes to allow fixing to base of 2.000" flush housing.

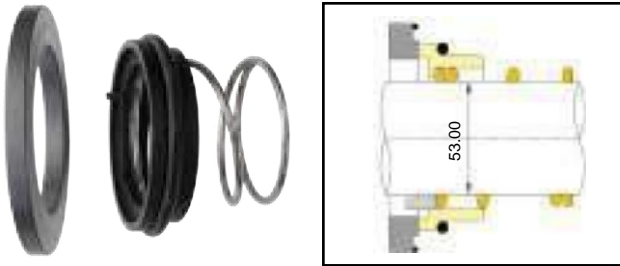

MTS 9x range for ALFA LAVAL pumps

MAK-TECH SEALS manufacture and stock a wide range of seals to suit the common Alfa Laval® centrifugal pumps, each of which is dealt with below.

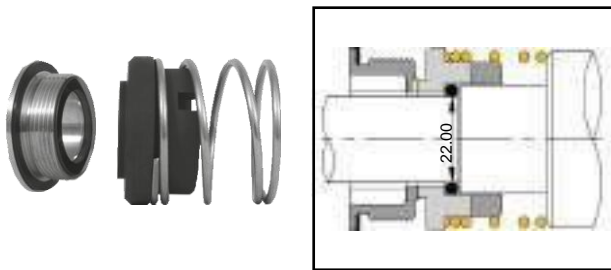

MTS 90 (53mm)

MTS 90-53mm complete seals, designed to suit all sizes of ALC pump, with the larger flush-housings fitted. For non-flushed ALC series pumps, the MTS 19C seal is utilised, see previous page.

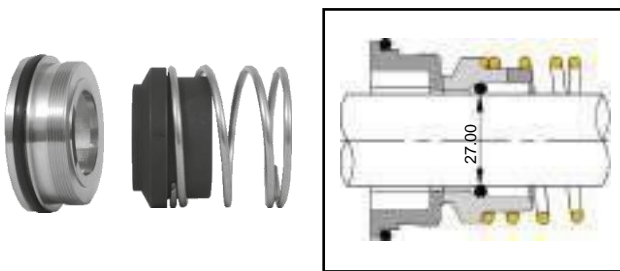

MTS 91B (22mm)

MTS 91B-22mm complete seal, designed to suit pump models FM0, FM0S, FM1A, FM2A, FM3A and FM4A

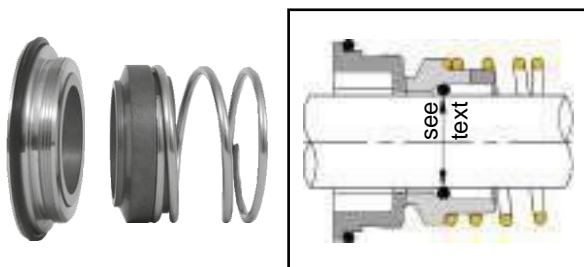

MTS 92 (27mm)

MTS 92-27mm complete seal, designed to suit pump models MR185A and MR200A

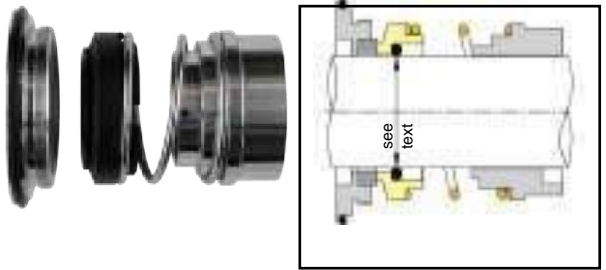

MTS 92 (32mm and 42mm)

MTS 92-32mm and 42mm complete seals, designed to suit LKH series pumps with standard seal chamber. For pumps with flushed seal chambers, please see Types 92B and 92D in the opposite column.

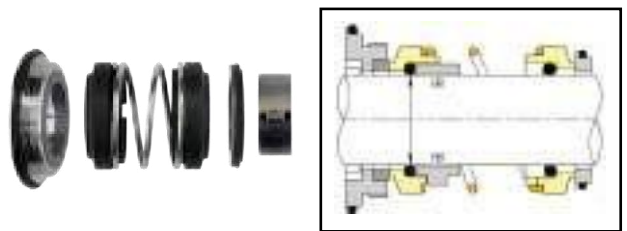

MTSK 92B (32mm and 42mm)

MTS 92B-32mm and 42mm complete seals, designed to suit LKH series pumps, with a flushed seal chamber

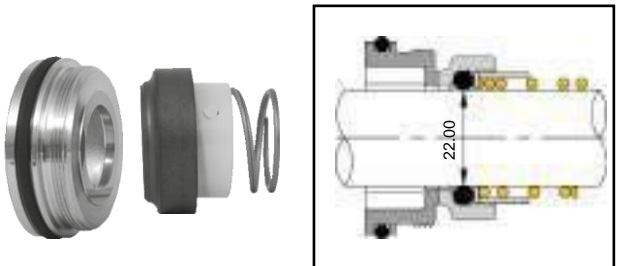

MTS 92D (32mm and 42mm)

MTS 92D-32mm & 42mm complete double seal, designed to suit LKH series pumps with a flushed seal chamber and double seals.

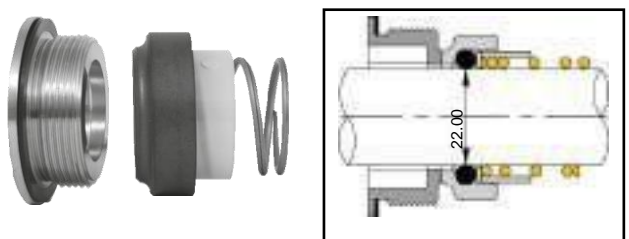

MTS 93 (22mm)

MTS 93-22mm complete seal for MR166A, MR166B and MR166E pumps.

MTS 93B (22mm)

MTS 93B-22mm complete seal, designed to suit pump models ME155AE, GM1, GM1A, GM2 and GM2A MR166E

MTS 912 (32mm and 42mm)

MTS 912-32mm and 42mm multi-spring seal kits, designed to suit LKHI, LKHP, LKHSP and LKH 100 series multi-stage series pumps. Please contact us for wear-ring and lip seals sets for these pumps.
