SKO – 22 OIL **(SYNTHETIC KNITTING OIL)**

SKO – 22 Oil is synthetic knitting oil (**Revolutionary & Certified Lubricant**), specially designed and formulated for the lubrication of sinkers & needles of knitting machine to provide **long life** and extremely **low friction** performance. It is **non-staining synthetic oil** which does not leave any carbonaceous deposits, and due to its excellent lubricity, it **reduces the power consumption & operating temperature** of a machine. Its mild antistatic and antirust properties make it suitable for use in high speed knitting, texturizing and winding machinery employed in Textile and Polymer industries.

It is fully **scourable** and does **not leave any stains** whatsoever after the fabric is washed. It does not damage the paints or rubber and plastic parts used in knitting machines or affect the electrical controls of the machine. It is very much suitable for any brand or make such as (**Terrot, Fukuhara, Orizio, Monarch, Camber, Vanguard, Mayer & Cie, Year China, Smart, etc.**) And any (**Circular & Linear**) types of knitting machines.

Exclusive Features :

- It is non-stainy in nature.
- It does not form any gummy deposits or formation of carbonaceous residues.
- Because of an excellent lubricity it reduces friction and wear and tear of needles. It also reduces power consumption & temperature of machine.
- Helps in high-speed operation with higher productivity.
- Completely scourable and compatible with other parts (paints, rubber, plastic) of the machine.
- Guaranteed & Proven product because it's true values required for needle lubrication.

Sr.No.	Characteristic	Typical Value
1)	Colour	Clear – Water White
2)	Viscosity at 40°C	22CST
3)	Viscosity Index	120
4)	Flash Point	205°C
5)	Pour Point	-40°C
6)	Carbon/Ash Residue	Negligible
7)	Additives	Antioxidant, Antirust, Antistatic & Antiwear
8)	Temperature Range	-40°C to 200°C

Packing :

25 Liters & 200Ltrs Valerex Container.
