

# SCRAMBLE NET

Lift Arts make Scramble-net / Rescue-net is designed as rescue-net for offshore sailing yachts, patrol boats, pilot boats and public transport boats. Its main purpose is to enable man overboard to climb on board or to hold to it while other methods are prepared. We generally make these ship scramble nets as per ONGC approved specification. Besides ship scramble nets we also make any customised scramble net as per specific requirements of clients.

**We also supply rescue cradle made of 100% high tenacity polyester webbing.**
