

## Technical Details

Model	EagleTON <sup>0.1</sup>	EagleTON <sup>0.25</sup>	EagleTON <sup>0.5</sup>
Max.loading capacity(Kg)	100	250	500
Weight of equipment(Kg)	35	40	40
Total vertical traverse(mm)	1500*	1500*	1500*
Max.upward speed(m/min)	0-8	0-8	0-8
Max.downward speed(m/min)	0-6	0-6	0-6
Motor Power(kW)	0.25	0.5	0.5

\* vertical traverse can be modified based on the application

## Applications

- Product assembly applications
- Hardware store or warehouse applications
- Component loading and unloading to machines
- Applications in process lines such as paper industries
- Applications in furnaces or heat treatment plants
