Jacobs 701

Cross Filament Tape

Product Description

Jacobs 701 is backed with PET film and reinforced with glass fiber. Its high strength and high performance mono directional filament tape, special adhesive left no adhesive after peeled off.

Features

- High adhesion
- Excellent holding power
- Easy bonding to variety of corrugated and solid board surfaces
- Excellent tensile strength
- High resistance to nicks, abrasion and moisture
- Tear resistant

Main Applications

- Industrial Palletizing
- Heavy duty carton sealing
- Industrial splicing and jointing
- General bundling and reinforcing (no UV exposure recommended)
