

SWIVEL ANGLE PLATES

Used for setting a job at an angle quickly and correctly. They make an ideal accessory for milling, drilling, grinding and shaping operations.

- Graduated for setting 0 to 90° on the boss itself for better setting accuracy and longer life of scale.
- Flatness of working face within 0.012/300mm and T-slots parallels to edges within 0.05/300 mm.

ITEM CODE	Sizes in mm					T-slot details		
	L	x	B	x	H	Size	No.	Pitch
