## CINT-SMART HOME

### About CINT

We are a technology driven company with a diversified portfolio. Our products and solutions are designed to meet the demands for global standards and quality.

Founded in 1992, CINT is consistently recognised for outstanding quality, innovation and product value. Leveraging our in house manufacturing expertise we are able to integrate robust hardware with advanced software to provide our customers with security products that meet global levels.

Our varied product portfolio and excellent after-sales support have earned us long partnerships with most of our clients. Since our inception, we have had the pleasure of working with more than 100 Embassies and High Commissions in India among other prestigious clients. CINT has a global presence and is operating in USA, India, Singapore and Hong Kong.
