

- Axial Flow, Centrifugal Inline
- Frictionless Special Bearings
- 2pole Standard
- 415 Volts, 3 PH 50 Hz (373 V to 457 V)
- 'H' class Insulation With corona Wire
- IP-67 PROTECTION
- Tin bronze Impeller (IS-306)

- Dynamically balanced Rotor shaft assy with Impeller
- Suitable Spec For CLW /RCF/DLW/DMW
- Specially designed for Level of Vibration from End covers sealing to Motor Locking.
- Premium quality gravity Al die castings.
