Pig Feed

“Why a good diet is vital for your Pig’s growth.”

In any successful pig production, feed plays an important role. The quality of the rations greatly determines their growth, the general resistance to diseases, the regularity of breeding, the size and vigor of the litter, the amount and quality of the milk and the quality of the carcass produced for the market.

Pigs are the most rapidly growing livestock and suffer more from nutritional deficiencies than the ruminants. Therefore, a complete diet for pigs it’s important for the overall growth and productivity.

Gold Coin offers nutritionally complete and a safe feed produce.

4

Uniqueness of using Gold Coin:

- 1. Steam cooked Pellet Feed:**
Negates nutritional wastage & provides refine feed.
- 2. Nutrition:**
