

# WATER – BASED LAMINATION ADHESIVES

PRODUCTS	APPLICATIONS	FEATURES
<b>MYCRON 291</b>	BOPP to board/ paper lamination Polyester film to board, Letheroid paper lamination for	High bond strength  Insulation and high temperature
<b>MYCRON 7658</b>	PET, BOPP ,PVC, metalised film to Board lamination Pearlized film to board	High bond strength on all Surfaces with high gloss And good heat resistance
<b>MYCRON 7654</b>	BOPP film to board paper High quality catalogs  <small>Pharma cartons</small>	High bond strength Good heat resistance Good coverage, high gloss
<b>MYCRON 7650</b>	BOPP / polyester film to Board/paper, title covers Whisky cartons	High bonding, high Performance pet lamination, Good heat resistance good Low temperature properties
<b>MYCRON 7644</b>	PET, BOPP ,PVC, metalised film to Board lamination Pearlized film to board	High gloss High bond strength Good heat resistance
<b>MYCRON 7640</b>	BOPP/ PVC/ polyester to 180 Gsm board for all applications <small>School exercise books</small>	Medium to high gloss High bond strength High heat resistance
<b>MYCRON 7633</b>	PVC to board/ paper lamination Garment boxes, pop danglers School books and brown wrappers	Medium to high gloss Medium to high bond Good heat resistance
<b>MYCRON 3339</b>	Board to board pasting Paper tube/ core & cone making Sweet box inner lamination and Multiple packaging applications	Low solids moderate Viscosity & high bonding, Medium to slow Setting product

# WATER-BASED LAMINATION ADHESIVES

PRODUCTS	APPLICATIONS	FEATURES
<b>MYCRON 7605</b>	Board to PVC film for lamination Manufacturer of jewelry boxes Pasting of flocked fabrics to Board flocking of viscose to Paper and pasting	Medium solid contents Medium to good bond
<b>MYCRON 217</b>	Aluminum foils to paper/board	High green strength High solid contents Can be diluted by water
<b>MYCRON MS 5</b>	PVC film to brown wrapping paper for school, books and metalized Paper	Medium to high green Strength Can be diluted by water
<b>MYCRON KTL</b>	Foam to fabric by lamination by non foaming method	Good bond strength Moderate water resistance
<b>MYCRON FF 90</b>	Foam to fabric by lamination by foaming method	Good bond strength

# WATER – BASED PACKAGING ADHESIVES

PRODUCTS	APPLICATIONS	FEATURES
<b>MYCRON CPW</b>	Carton making & flap closing for varnished/ laminated cartons on high speed machines	High green strength Good heat resistance Good coverage
<b>MYCRON 2000L</b>	Carton making & closing by nozzle for varnished / laminated carton	High green strength making inner liner carton High bond strength
<b>MYCRON 281</b>	Varnished/ laminated carton pasting on machine by wheel	High open time High bond strength Moderate heat resistance
<b>ORION XL 45</b>	Laminated/ varnished carton pasting, manual and machine	High open time High bond strength High heat resistance
<b>MYBOND T 33</b>	For corrugation pasting used by high speed machines operations	High green strength Fast drying secondary
<b>MYCROYVYL 9900</b>	Board to Board pasting, paper tube/ core & cone making pencil making multiple packaging applications	High solids moderate viscosity High bonding, fast setting product
<b>MYBOND SLC 9</b>	Staple less corrugation side pasting can also be used by nozzle	High bonding strength High heat resistance
<b>MYCROGLOW</b>	Water based blister packaging for blistering of PVC to Board/Paper	High sealability
