The Power of ONE

TVS

Features

This product is a non-coding type smoke detector. When working normally, indicator light flashes one time per 9 seconds; when alarming, indicator light will be normally on, meanwhile output contact action.

➢ Power interrupt reset / automatic reset optional
➢ Non-polarity power input
➢ Alarm output NO / NC optional
➢ SMT technology, strong stability
➢ Metallic shield, good anti-interference(20v/m-1GHz)

Specifications

Operating voltage	DC12V ~ DC30V
Working current	12mA (Relay-NC), 500uA (Relay- NO)
Alarm current	10mA ~ 25mA
Alarm output	NC / NO optional; contact capacity: DC28V 100mA
Reset mode	automatic reset / power interrupt reset optional
Alarm indicator light	red, normally on when alarming
Executive standard	8.EN54-7
Sensitivity	8.0.5db/m(±0.1db/m)
Operating temperature	-10 ℃ to +55 ℃
Relative humidity	≤ 95%, no condensation
Dimension	Φ103*53mm (with base)
Carton Size	570*350*405
Packing	105 PCS/ Carton

UL FC RoHS CE
