

Honri Airclean Technology Co., Ltd

Model CLJ-B330, 1.0 cfm, Battery Operated, Colour Touch Screen, Laser Airborne Particle counter with Stainless Steel Casing

The Model CLJ-B330 is the latest particle counter from Honri Airclean with a flow rate of 28.3L/min (1 cfm). It has a user-friendly interface and a high-resolution colour touch screen that is very easy to use. The model CLJ-B330 can confirm the class of the clean room and print out the test results quickly, and meets ISO 14644 requirements. The instrument measures the no. of particles in **8 particle size channels simultaneously**, with 2560 samples record storage .It is widely used in measuring particles in clean rooms and in evaluating the quality of indoor air. It also used for testing the performance of HEPA filters. It has a Stainless Steel Housing. It is very Portable and is Battery Operated.

Features:

- Flow rate : 28.3L/min
- Displays eight channels simultaneously
- ISO14644 and Federal Standard 209E Calculation
- Data storage (2560 samples)
- High-resolution colour touch screen (7")
- Audible Alarm

- Built-in printer
- SS 304 case
- Battery Operation

Specifications:

- **8 particle-size channels**: 0.3, 0.5, 0.7, 1.0, 2.0, 3.0, 5.0, and 10.0 (µm)
- Sample Period : 1 Sec~3599 Sec(5L-3000L)
- Self-clean Time : ≤10min
- Operating Environment : Temperature 10~35°C, Relative Humidity ≤75%
- Output : Built-in Printer
- **FREE CARRYING CASE SUPPLIED WITH THE PARTICLE COUNTER**
- Light source : Laser diode (30,000 hours mean time between failure)
- Max permissible sampling concentration : 35,000 PCS/L
- Dimension (W×L×H):220X285X225(mm)
- Power Rating : 250W
- Weight : 9.5KG
- Power Supply : 220V±10%, 50Hz±2Hz
- Data conversion (ft³ and m³)
- Accessory supplied **Free**: Operation manual, Factory inspection report, Filter, Power line, Isokinetic Probe, Tripod, Printer paper, Fuse.
