

Harikrishna engineering work

**HARIKRISHNA
Engineering**

Technical specification

Application	Domestic water well, construction piling
Capacity	Depth: 1000ft Dia : 6 to 36 inch 150mm to 1000mm
Prime mover	Truck engine
Formation	Soft and hard soil
Drilling method	Direct rotary
Tower	Mast length : 35feet Road handling capacity :15 feet Structure : 3' c class heavy pipe structure
Hosting drum	16 to 20 inch (as required)
Hosting capacity	14000 kg
Rotary head	4x4 square pile rotary Max RPM :200
Leveling jack	4 hydraulic leveling jack 4 manually screw type jack
Water pump	Centrifuge pump 3x3 800lpm Mud pump as per requirement
Additional Fitment	Tool box , night lamp , general tools
Chassis	6c structure type chassis
