Tubing Detection

PRODUCT DESCRIPTION

FireChem Systems are Pre-Engineered, self- contained, Reliable and cost-effective Automatic Fire Detection & Suppression units for single or multiple enclosures/spaces/equipment(s) against Fires.

Multiple Detection points for Faster -Detection & Suppression of fire in seconds, thereby mitigating loss due to equipment damage and downtime.

FireChem Systems are Environmentally Friendly – Low Pressure systems utilizing UL certified Clean Agents & comes with various interface options to initiate activities like Annunciation, trip Power input supply, ventilation, interface and monitoring through BMS, SCADA etc.

FEATURES

- Quick suppression of fires.
- Leaves very minimal residue.
- Safe for people and environment.
- Various options to meet your needs.

ACCESSORIES

End of line Adaptor with pressure Gauge

Isolation Ball Valve

Manual Actuator with pressure gauge

Fire Detection Tube

ECO FRIENDLY

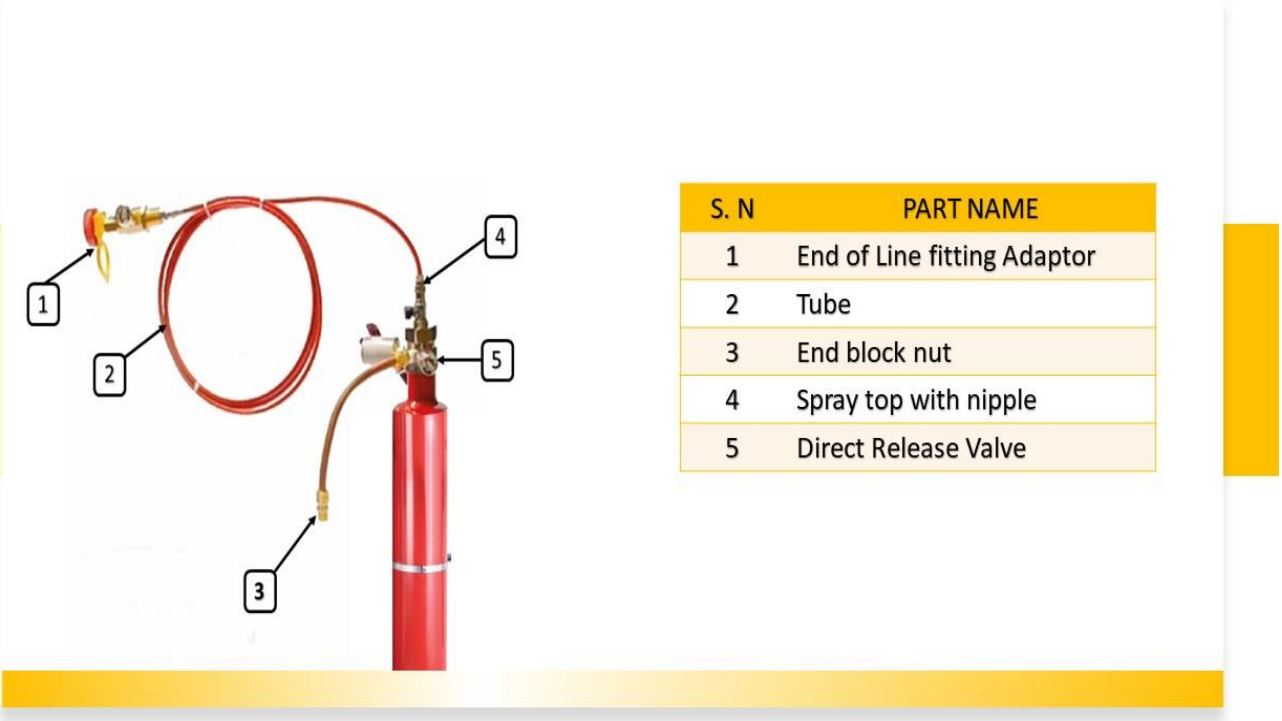
ADVANTAGES

- Safe for equipment
- Safe for human body
- Environment friendly
- No residue after operation
- No chemical reactions
- No fogging

AREAS OF APPLICATION

- Kitchen Areas
- Telecommunication
- Data Centre
- Metro Rail
- Power Generation
- Electrical Panel Areas
- Infrastructure
- Airports
- Pharmaceutical
- Port & Container Depot

COMPONENTS FOR A COMPLETE TUBE DETECTION SYSTEM



S. N	PART NAME
1	End of Line fitting Adaptor
2	Tube
3	End block nut
4	Spray top with nipple
5	Direct Release Valve
