

Capacitance Meter

Model : QDCM-1

Application:

- LT/HT Capacitor Manufacturer
- Transmission / Distribution substations
- Component Manufacturer
- Test Laboratories
- College Laboratories

Features

- Two wire Measurement
- specially designed for Power Capacitor manufacturer
- 3 ½ Digital LED Display
- Discharge facility before measurement
- Stable and fast measurement

Technical Specification

Capacitance Range	0.01 μ F to 1000 μ F in 3 ranges
Accuracy	± 1 % of the reading ± 1 digit
Test Frequency	120Hz, ± 5 %
Display	3 ½ Digit LED Display
Power Supply	230V AC, 50Hz, 1 Phase

Standard Accessories

- One set of Test leads (2meters) with Crocodile clips
- Mains Cord
- User Manual

- The meter can be widely used for quality control on production line, at substation for power capacitor measurements, incoming inspection, and component evaluation.
- Robust design low-frequency capacitance measurement meter with easy operation, intelligence, convenient and applied functions, high measurement speed
- High-quality performance at a low cost.
- The QDCM-1 Digital Capacitance Meter offers solid value in an industrial quality meter.
- Allows reliable and repeatable measurements of specimen like high voltage machines even under induced or residual voltages.
