

# Portable X-ray System

## Features

- Higher image quality.
- Less radiation quantity.
- Radiation output is not affected by line voltage fluctuation.
- Adult/child mode is selectable.
- The exposure time can be adjusted and memorized.
- Film-based mode and digital imaging mode selection key is available.
- High Capacity battery.
- Exquisite and compact appearance.
- Easier to handle & more comfortable to hold.
- Build in overheat protection procedure, effectively protect the tube.

## Technical Specifications

Output kv (DC)	60 kV
Tube mA	2mA Fixed
Exposure Time	(0.01 ~ 2.0 sec)
Focal Spot	0.8mm
Battery	Li-on Rechargeable
Filtration	1.5mm Al
No.of X-Ray per charge	200
Input Power	DC 22.2V, 1500mAh
Weight	2.45kg
