## PAP-TECH PUNCH & DIE CUTTER

MODEL : PAP-2060-A

(For Tensile Strength Tester)

The Precision Test Strip Punch & Die Cutters are intended for accurate and rapid preparation of test pieces for use in Tensile Strength tests.

It eliminates testing errors due to sample preparation. Cutting of multi samples simultaneously possible.

The cutter is provided with an automatic clamping device, which by means of clamping beam, holds the sheet material firmly prior to the cutting action.

*Punch & Die* manufactured from tempered tool alloy steel to ensure long life. Sturdy Model, easy to operate.

### TECHNICAL - SPECIFICATION

Cutting Length :	300 mm.
Cutting Width :	Adjustable by spacing washers 12.5 mm, 15 mm, 20 mm, 25 mm.
