

TWIN SPINDLE CNC GEAR CHAMFERING MACHINE

Octagon Manufacturing Technology
S. No. 576/10, HUDCO, Wagh Dongar, Saswad
Pune – 412301
Tel: +919881403958
Email: info@octagontechnology.co.in

Features:

1. Compact and rigid!
2. Perfect for chamfering and deburring.
3. Easy to operate.
4. Precision LM guides and ballscrews
5. High speed machining
6. CNC control options available.

Fixture development to suit the operation

Machine Specification :	
STROKE : X Y Z	200X200X125
Axes motor	Servo motors
Table size	400mm x 200mm
Tool Holder	ER16 collet holding system
Spindle motor	Octagon make spindles 5000RPM 200W
Spindle Speed	5000RPM
software and hardware:	HUST CNC Controller
Fixturing	Customized Fixturing system as per Customers requirement as option
CNC simulation	CNC Program can be checked for errors using graphic window
Power supply:	THREE Phase supply
