"Globally Renowned Best CANCER Treatment Specialist through  
Genetic and Auto Immune Correction."

---

## NEUTRALIZING CARD / PRODUCT DETOXIFICATION

**Today toxicity is present in every available item. Be it a product, food or drink. Alcohol and cigarettes too are highly toxin in nature.**

**The use of this NEUTRALIZING CARD is that when you place any item on the card for a period of a minute, it would reduce the negative impact from the item, thus making it less toxic.**

**Today medicines are known to have all possible SIDE EFFECTS. Place your medicines on the card for a minute before popping the pill in your mouth and there you have reduced the negative impact of that pill.**

**For people using alcohol and wanting to reduce the negative impact may keep the bottle of alcohol over the card as much as possible / overnight.**

**For smokers, you may keep the card along with your cigarette pack / or insert the card in the pack and leave it with your cigarettes.**

**Children are susceptible to infection easily. Whatever you give to your child to consume, place it over the card for a minute and hand it over to your child. Your child will be able to digest better. Milk too can be treated before giving it to your child.**

**Water is to be consumed around 8 to 10 glasses per day (2 to 3 litres per day). Place your glass of water on the card before consuming. Better still place your bottle of water on the card, thus you save time.**

**Today unfortunately every food item we purchase (fruits, vegetables), are unsafe for human consumption. Wash them thoroughly, then place them over the card for minimum 5 minutes, before storing or using them.**

**Today the worst challenge to your child is to avoid aerated drinks and snacks / fast food / junk food. If we are not able to stop them, maybe we could help them. Provide them with a card to carry with them always - a handy tool to treat the item before consuming.**

**If items need to be placed in a container to be put on the card, preferably use plastic containers. Glass too can be used. Avoid metal.**

**Clean your toiletries before use. You can reduce the side effects from the toiletries you use daily. Soaps, Shampoos, Toothpaste, Powder, Cosmetics etc. etc..... the list is**

endless. You need to place the item on the card only once on purchase, thereafter it need not be done on a daily basis.

Do not use the card or keep it along the RADIONICS medication, as RADIONICS medication are pure vibrations and have no SIDE EFFECTS as it is.

It can be used by every member of the family / friends in turns and can be shared easily.

The LIFE of the card is permanent, once purchased it can be used lifetime.

## NEUTRALIZING MANAGEMENT

HELPS REMOVE TOXICITY FROM PRODUCTS

DETOXIFY PRODUCTS AND ENJOY TOXIC FREE LIFE
