

AlcoStop Police Use Breathalyzer

4800

Fast&Rapid Alcohol Screening Device

Friendly
Advanced Technology

 Don't Drink Drive

Professional R&D and manufacturer of breathalyzers

Device:	
Measurement mode:	Scan Mode
Measurement range:	0 to 100mg/100ml BAC
Sensitive:	
blowing distance(device to mouth)<5cm	±5mg/100ml
blowing distance(device to mouth)5-10cm	±6.0mg/100ml
blowing distance(device to mouth)>10cm	±10mg/100ml
Pump:	Continuous extraction,speed >0.5L per minute
Ambient conditions:	
Operation temperature:	-5 °C ~ +50 °C
Storage temperature:	-30°C to + 70°C
Measurement time:	Minimum 1 second,adjustable
Ambient pressure:	600 to 1400hPa
Ambient humidity	20 to 98% r.h
Battery:	Li-ion rechargeable battery
Battery life:	More than 48 hours continuous working
Display:	Digital and full graphic backlight display
Alarm:	Red,yellow,green LED indication ,alarm limit can be adjusted
Miscellaneous:	
Sensor:	Fuel cell
Sensor specificity	Alcohol only
Mouthpiece:	No need
Power save mode:	Automatic switch off after 2.5minutes without use
Calibration:	Every 12 months
