

PROFEN

PROFENOPHOS 50% E.C.

**Broad Spectrum
Organophosphate
INSECTICIDE & ACARICIDE.**

Advantages :

- Quick knock down and longer duration of insect control.
- Strong OVICIDAL ACTION in addition to LARVICIDAL ONE
- Kills insects on lower and upper surfaces of leaves due to TRANS LAMINAR penetrating action.
- Excellent for control of neonate larvae
- Excellent control of Heliothis/other bollworms
- Effective against whitefly, mites and other sucking insect pests.
- More suitable for IPM programmes
