

Modular, Scalable, stable Transfer Machine Retaining Fabric and Feel

Xpress Heat Transfer Machine is a multi functional heat transfer machine, which enjoys customer confidence since its inception. It is an easy to use, eco friendly device which cater's desired results.

Features

1. <0.5 mg drum balancing variation (lowest in industry).
2. Works on uneven fabric, cut pieces and roll to roll printing and this machine works in this industry without butter paper it saves your factory coasting & fabric feel smoother.
3. Its multifaceted features includes heat transfer printing as well as cotton cold transfer printing.
4. Enables adjustable pneumatic pressurizing for flexible control of pressure. Allows constant temperature control.
5. Excellent print quality and ink penetration Ensures no color difference of fabric before and after the transfer printing.
6. Enclosed wrapping of the roller ensures protection from heat loss problem.
7. Less power consumption and man power required thus cost effective printing.
8. Special wrapping ensures natural fabric hand feel.

Bluejet Printer Technical Specification

Drum Size	420mm	600mm	800mm	1000mm
Power	10 - 27KW	27 - 45KW	36 - 65KW	45 - 85KW
Temp Range	0-399	0-399	0-399	0 - 399
Speed	120MT/HR.	270MT/HR.	500MT/HR.	750MT/HR.
Dimension	2640*1400*1470mm	2640*1540*1570mm	3100*1800*1800mm	3500*2000*2100mm

Plot No. 1027, Road No. 87, Sachin G.I.D.C, **Surat**-394230, Gujarat, India.
