

Gulf No Rust WXD 32

Water displacing type rust preventive for long term protection

Product Description

Gulf No Rust WXD 32 is solvent based rust preventive and leaves thick greasy film. It is specifically designed for protection of valuable components like machines, machine tools, finished components. It offers excellent protection even under severe conditions.

Features & Benefits

- Good robust greasy film offering long term protection
- Excellent dewatering and metal wetting property
- Does not create stains even under highly humid conditions
- Can be applied by dipping, brushing and spraying methods
- Does not contain any harmful chemicals

Applications

- Medium to long term protection of ferrous components during storage, assembly and operations.
- Can be used for export consignments through sea shipment.

Specifications, Approvals & Typical Properties

| Meets the following Specifications | | |
|---------------------------------------|-------------|------------------|
| ISO 6743-8 (1987): ISO-L-REE category | | |
| Meets RoHS requirement | | |
| Typical Properties | | |
| Test Parameters | ASTM Method | Typical Values |
| Appearance | Visual | Thin Amber Fluid |
| Density @ 29.5°C, Kg/l | D 1298 | 0.8106 |
| Flash Point, PMCC, °C | D 93 | 42 |
| Water displacement test | IS 1154 | Passes |
| Film thickness, microns | In-house | 4-5 |
| Coverage (m ² /l) | In-house | 50-60 |
| Salt Spray test, hours to fail | B 117 | 120 |
| Indoor Protection, months | | 18 |
| Outdoor Protection, months | | 9 |

Note - Values mentioned above are typical values and do not constitute specification

Removal

If needed, the protective film can be removed by wiping off with rags/waste soaked in kerosene/mineral turpentine or by alkaline degreasers or solvent degreasing methods.

NOTE: **Gulf No Rust WXD 32** is compatible with normal steel components and pipework prevalent in the construction of application systems. Care should be exercised with selection and use of seals and paints in contact with this product.

Properties mentioned above are typical only and minor variations which do not affect the product performance are to be expected in normal manufacturing. The above information is based on past history of the grade only and must not be construed as a guarantee of performance. Follow equipment manufacturer's recommendations for performance level and viscosity grade. The Material Safety Data Sheet for this product is available from your nearest Gulf Distributor and Office.
