# AIR SANITIZER

**BREATHE FRESH, LIVE HEALTHY**

- ❖ Kills Viruses & Bacteria's
- ❖ 100% Chemical Free
- ❖ Maintenance Free
- ❖ No Filter Replacement
- ❖ 5 years warranty\*

# Pulse Plasma Technology

Pulse plasma is a type of non-thermal plasma that can be used to sanitize air.

Air sanitizer generates plasma cloud using pulse plasma technology where ions pulse at low frequency to generate packs of high speed Non Thermal plasma, which attach

to pollutant particles in the room such as dust, bacteria, virus, pollen, smoke and other allergens to kill, clean and sterilize the air.

Pulse plasma is a sustainable safe, effective and greener alternative than other methods like UV, HEPA filter, chemicals & etc, to sanitize air we breathe.

**MARVEL**

<i>Specifications</i>			
Model	IM 100	Type	Heavy Duty
Technology	Pulse Plasma	Air Flow	100CFM
Air Circulation	Forced Air	Input Voltage	230VAC
Gross Weight	3 Kg	Current Rating	0.12 A
Size	230x135x195(mm)	Frequency	50/60 Hz
Body	Powder Coated	Power	24 W

**Certified By**

Tested and Approved by  
**CENTRAL ELECTRICAL TESTING LABORATORY**  
 Department of Industries & Commerce  
 Govt. of Tamilnadu

Clinically proved by  
**NABL Accredited Lab**

## BENEFITS

It is very effective in killing a wide range of microorganisms, including bacteria, viruses, and fungi.

It is a very safe way to sanitize air because it does not produce any harmful chemicals or byproducts.

It is highly Energy-efficient, Low cost & Maintenance free technology for a sustainable future.

Reduces exposure to indoor air pollutants: Pulse plasma air sanitizers can remove a wide range of indoor air pollutants, including dust, pollen, pet dander, Moldspores, and smoke. This can improve indoor air quality and reduce the risk of health problems such as allergies, asthma, and respiratory infections.

Kills bacteria and viruses: Pulse plasma air sanitizers can kill a wide range of bacteria and viruses, including those that cause the common cold, the flu, and COVID-19. This can help to reduce the spread of infections in areas like houses, hospitals, schools, Air-conditioned work areas and conference halls.

Removes Odors: Pulse plasma technology air sanitizer can remove bad odours including tobacco smoke and others. This can create a more pleasant and refreshing indoor environment.
