

Powerful innovation

FIBERGLASS INSTRUMENT CANOPY

For maximum efficiency

Sumip Composites Pvt. Ltd. is the leading company in manufacturing Fiberglass product in the industry. Sumip's FRP Instrument Canopy is an innovation that values the strength of the product to provide protection from excessive temperature rises or any accidental impact from outside. Hence give equipment to work with its maximum efficiency.

Product Features

- Fiberglass makes it Durable, light-weight and corrosion-resistant
- It doesn't block the airflow to circulate
- Bolt-free, strap-free and vibration-free
- Detachable feature becomes easy to terminate the cable
- Reduces the Sun Face Temperature of Instruments
- Minimize Instrument Drift
- Environmental / Weather Protection

Technical Details

Material	Fiberglass Reinforced Plastic
Color Shade	Standard RAL 7032 or As per Requirement
Typical Characteristics	High Mechanical Strength
	Weather Resistant (Resistant to most of the acids, alkalis, vapours & fumes)
	UV Resistant

We also provide half canopies along with full protection canopies.

Depending on applications, protection canopies can be chosen.
