## BLACK TEA

Black is a more oxidized tea's than other Tea's. Black Tea is generally stronger in flavor than other tea's. Black tea retains that's flavor for several years. Black tea's have several health benefits. Such as like,

- Lowers ovarian cancer risk
- Boost immunity
- Healthy digestive track
- Reduces the kidney stones
- Relieves from asthma
- Eliminates free radicals from body
- Relieves stress
- Prevents breast cancer

### Health Benefits of Black Tea

- Helps repair coronary artery dysfunctions in many heart patients.
- Has a healing effect on intestinal disorders.
- Extremely beneficial for asthmatic patients, as it expands the air passage, thereby allowing patients to breathe more easily.
- Helpful for curing digestive disorders.
- Lowers the risk for heart problems.
- Aids women in preventing cancerous growth in the breasts, especially women in the pre-menopausal phase.
