

Mastic Tape is a cold-applied butyl sealant designed for use with Gala Heat Cable Joint and Termination kits to offer excellent water sealing and weatherproofing.

Black Mastic Tape (HBMT):

Black mastic tape is suitable for LV and MV applications. It is used for sealing and waterproofing of electrical installations such as joints and terminations, as well as in telecom installations.

Red Mastic Tape (HRMT):

Red mastic tape is used in MV terminations to ensure a watertight seal on breakout boots, non-tracking tube and on lugs.

Yellow Stress Control Mastic Tape (HSCM):

Stress relief void filling mastic tape is used on connectors and at screen cuts when doing medium voltage joints and termination installations.

Features & Benefits:

- Excellent adhesive and sealing capability
- Good di-electrical properties
- UV and weather resistance
- Resistant to chemicals
