

PRODUCT PROFILE & LARGE 3D ENGRAVING MACHINE(4 AXIS)

WELCOME

ABOUT THE COMPANY

Established in 2012 as **FUSION TECHNOCRAFT** and incorporated as an LLP on May 17, 2018, **FUSION CNC TECHSYSTEMS LLP** is a leading manufacturer and importer of advanced CNC Stone Carving and Cutting Machine technology and stone diamond tools. Under the visionary leadership of **Mr. Manish Sukhadia**, Founder and Managing Partner, the company specializes in a diverse product range including CNC engraving and cutting machines, profiling machines, stone temple and pillar carving systems, sculptures, granite monuments, and tombstone machinery. Renowned for exceptional performance, high durability, low maintenance costs, and competitive pricing, Fusion CNC ensures the highest quality by using premium raw materials and maintaining a robust network of trusted vendors with an efficient bulk manufacturing infrastructure. Driven by innovation and guided by experience, Fusion CNC continues to build a strong presence in the stone processing machinery industry and shape excellence in CNC technology and stone craftsmanship.

LARGE 3D ENGRAVING MACHINE(4 AXIS)

CS-150200-1

LARGE 3D ENGRAVING MACHINE(4 AXIS) CS-150200-1

Processing Size	Height : 2000mm Circle : Ø1 500 mm Square 1050mm x 1050mm
Lathe Bed	Heavy-duty Square Pipe Welding Bed, Stainless Steel Sink, Stainless Steel Plate
Longmen	Thickened Aging Steel Gantry
Guide	Taiwan, HIWIN,30
Ball Screw System	Taiwan 3210 and 4010 TBI
System	FULL SERVO (DORNA)
Control system	Weihong NK300CX with Hand Control Remote
Rack	Precision Helical Drive
Spindle power	7.5 KW Water Cooled
Spindle Speed	18000-24000 RPM
Invertor	7.5KW*1
Driving system	Servo Motor
Cooling system	Water-cooling
Control Switch	Schneider
Working voltage	AC 380v/50Hz or 60HZ
Saw blade motor power	22KW

Saw blade size	500mm
Water chiller	IOL Industrial Chiller
Dust Control device	Dust cloth
Lubrication System	Lubrication System

APPLICATIONS

Large 3D machine is using to make large diameter 4 axis work. It can work till 1500MM Diameter. Height can take 2000MM. By this machine you can carve pillar, Pillar Capital, Statue, Sculpture, Ideal work. This machine is applicable in Marble, Granites and All kind of sand stone also can use in high density Thermocol. Specific thing is that, here saw and spindle both given so your work will be fast.

<p>PRICE</p>	<p>\$37,900 (FOB) "Thirty-seven thousand nine hundred dollars special discount \$1500 for one set (Final Price \$36400)</p>
