

ALUNI MAXX

DISINFECTION
OF FLOORS

HIGHLY EFFECTIVE BIOCIDES WITH EXCELLENT CLEANING PROPERTIES FOR HARD AND SEMI-HARD SURFACES WITH LONG LASTING FRAGRANCE FOR MECHANICAL AND MANUAL USE

DISINFECTING ACTIVITY:

BACTERICIDAL (*incl. MRSA*)
FUNGICIDAL

AREA OF APPLICATION:

Disinfecting and cleaning all waterproof surfaces (walls, floors, sinks, bathtubs, toilets, etc.) in hospitals, doctors and dental practices, nursing homes, sanatoriums, kindergartens and nurseries, educational institutions, offices, restaurants, laundries, sports halls, swimming pools, public toilets, food, cosmetic and pharmaceutical industries.

HIGHLY EFFICIENT PRODUCT COMBINING EFFECTIVE DISINFECTION AND FLAWLESS CLEANING WITH LOW FOAMING

USE INSTRUCTIONS

ACTIVITY	CONCENTRATION	EXPOSURE TIME
BACTERICIDAL (<i>incl. MRSA</i>) FUNGICIDAL	0,25% (25 ml per 10 L of water)	30 min

The biocide is a concentrate from which aqueous solutions are prepared. Prepare a working solution at a concentration of 0.25%.

Wipe the surfaces once, then let them dry.

Exposure time 30 minutes. After expiration time, treated surfaces that come into contact with food should be rinsed thoroughly with potable water.

TECHNICAL DATA

APPEARANCE:
Green Transparent
Liquid

pH
6,5-7,5

COMPOSITION:

Active agents: di-n-decyl dymethylammonium chloride (DDAC) - 3.00 g / 100 g;

Other substances: non-ionic surfactant: 5%-15%; disinfectants; perfumes

EUH208 Contains: 4-(4-Hydroxy-4-methylpentyl)-3-cyclohexene-1-carboxaldehyde.
May cause an allergic reaction.

Hazardous materials: di-n-decyl dymethylammonium chloride: index # 612-131-00-6; Alcohols, C12-14, ethoxylated CAS no.: 68439-50-9

PACKAGING:
Bottle 1L,
Container 5 L

SHELF LIFE:
3 years from date
of manufacture

IMPORTANT INFORMATION:

The product is for professional use.

For further information and safety instructions see product label and safety data sheet.

Do not mix with other products!

SAFETY INFORMATION:

**Before use observe the rules for safe use of the product**

- Provide adequate ventilation.
- Avoid contact with eyes and skin.
- Do not breathe preparation.
- Wear suitable gloves and mask where is possible.
- Keep out of the reach of children.
- Keep away from food, drinks and feed.
- Do not mix with other chemical mixes.

Transport:

To be transported in covered vehicles separated from food, beverages and chemicals.

Storage:

Store in original container, in a cool, dry, well ventilated area at room temperature, away from food and drinks. Keep out of the reach of children.

Personal protective equipment:

gloves, goggles, clothing.

Fire Protection:

CO₂, dry chemicals and water. Extinguish fire from maximum distance. Firefighters to wear breathing apparatus and protective clothing.

Description of first aid measures:

- If inhaled - If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.
- In case of eye contact - Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.
- In case of skin contact - Rinse with lots of water. If irritation persists, seek medical advice.
- If swallowed - Do not induce vomiting. Rinse mouth with water. Consult a physician.

There is no specific antidote. Treatment is symptomatic.

In the event of an accident and / or spillage, take measures for its localization and limitation, and the amount collected from the product to be stored temporarily in special tightly closed and labeled containers and then be transferred to eligible company.

Measures should be taken to avoid contamination of surface and groundwater, soil and drainage system.

Type of generated gases and reaction products in the event of fire:

carbon monoxide, nitrogen oxides. To extinguish fire be used personal protective equipment - breathing apparatus, protective goggles / helmet, protective clothing.
