

Portable Oxygen Concentrator (Battery operated)

DYNMED is the initiator, designer and manufacturer of first Smart E-touch functional oxygen concentrator.

Main Features:

- * Smart E-Touch Flow Meter
To adjust oxygen flow, you only need to touch the LCD slightly.
- * Smart touch control for choosing oxygen purity and oxygen flow
Touch the LCD for what you want.
- * High capacity Li-Battery is always standby with the machine
And no need any power inverter, hereby avoid any potential electric hazard
- * The real "Portable" type oxygen concentrator.
Net weight is only 5 KGS (with battery).
With carry bag and options for trolley.

DO2-5P

Other Advantages:

Multifunction

Option for car charger

Timer clock

Large Touch LCD

For the Crowd:

- * Plateau hypoxia patients: Plateau travelers, Short term plateau workers.
- * Healthcare users: Long term mental White collars, Students, Miner, Geriatrics
- * Athletes: Long term strenuous Training athletes, Plateau training athletes

Parameters:

Oxygen Flow	1-5LPM
Purity setting	90-93%@1LPM; 60-63% @3LPM; 40-43%@5LPM
Power Supply	110V-230V; DC12-20V
Watts	85W
Sound	<40dB(A)
Running Mode	Oxygen Purity Display, Flow rate Display.
