

*Keyword to Safety*

## DOMUS. We believe it, we make it!

What we believe in is what we make. That is why in DOMUS our philosophy is based on three basic disciplines, QUALITY -SAFETY – FUNCTIONALITY. We work within this frame and we will continue to do so in the future.

DOMUS produces more than 500 products. Its business takes place in Greece and abroad, as well as covering every sector of safety. Today DOMUS manages to offer its clients, maximum security combined with aesthetics.

Realizing that quality and development of new products are essential factors of its success, it invests in continuous research in order to offer products that correspond to its consumers' needs.

The company's most important capital is its human resources. Its people are carefully selected for their values and they are the reason the company thrives in today's competitive world.

DOMUS is here today to make the difference and to continue its effort to contribute for a more secure and beautiful world!
