KAIZEN IMPERIAL is a renowned business entity engaged in Manufacturing, Supplying and Exporting of Scientific and Laboratory Equipments. Our wide range of Scientific and Laboratory Equipments is widely accepted among the clients and caters solutions to the needs of various industries such as chemical industry, pharmaceuticals, etc. Our range includes Laboratory Instruments, Hydrological Instruments, Meteorological Instruments, Soil Testing Instruments, Plant Testing Instrument, Petroleum Testing Instruments and Sensors. Our equipment is known for its distinctive features such as reliability, easy operation, durability and high performance among the clients across the globe.

We are supported by a diligent team of workforce that help us in developing a proven range of products. Further, these products are carefully checked by our quality controllers on different parameters of quality in order to match the high industrial standards. Today, we have been identified as a reputed Manufacturer and Exporter of general laboratory instruments and soil testing instruments.

Size	H.P
45 x 45 cm (to hold 25 flask of 100 ml)	0.25
45 x 45 cm (to hold 36 flask of 50 ml)	0.25
45 x 45 cm (to hold 49 flask of 25 ml)	0.25
45 x 45 cm (to hold 16 flask of 250 ml)	0.25
55 x 55 cm (to hold 25 flask of 250 ml)	0.25
60 x 60 cm (to hold 36 flask of 250 ml)	0.5
100 x 100 cm (to hold 81 flask of 250 ml)	1
125 x 125 cm (to hold 64 flask of 500 ml)	1

For continuous shaking of solution in Eriymeyer flask from 50 - 1000 ml capacity. Compact bench type model with platform fitted with rubber discs, mounted in ball bearing crank shafts to give an orbital motion to the flask. The motor is coupled by means of V - belt with pitch pulley is mounted on a heavy and sturdy iron angel frame. Shaking speed is controlled mechanically to work on 220/230 V AC supply.
