

Cap Torque tester :

Bottle cap torque test machine is one of intelligent multi-function instruction equipment for testing or inspecting many kinds of caps with torque. It specially is used on testing the torque of cap or lamb cap. It is widely used on product control system, with the function of easy to operate, high accuracy and economy.

Features :

- High precision, high resolution, quick sampling speed, full-screen display.
- Adopting high precision torque sensor, with torque direction display.
- Upper and lower limit value setting, red and green indicating lights and buzzer audible and visual alarm.
- Three units can be switched each other (N·m, kgf·cm, lb·in).
- Real-time, peak, automatic peak three models of optional switch.
- Peak holding, remove automatically function, remove time to set freely.
- Large storage, can save 99 groups of test data.
- Without automatic shutdown function, time can be set freely.

Model	AW-1	AW-2	AW-5	AW-10	AW-20
Capacity (N*M)	1	2	5	10	20
Load Resolution (N*M)	0.005	0.01	0.02	0.05	0.1
Accuracy	± 0.5%F.S				
Power	A/C 230V or 115V / +/-20% 50-60Hz Single Phase				
Weight approx.	10kg				

Specification are subject to change without prior notice.
